Measurement Session Location _____

Measurement Session Date and Time _____

Dear Parents,

My name is Brian Tyo and I am a doctoral student in the Exercise Science program at the University of Tennessee. The purpose of this letter is to help find participants for a study I am doing. My study will compare step counters in children (11-14 years of age). The attached flyer outlines the procedures for my study. In appreciation for helping me with the study, your child will receive 2 free movie passes. If you are interested in having your child take part in this study and do not have a Measurement Date, Time, and Location above, please contact me by phone or email using the information at the top of this letter. Should you have any additional questions regarding the study, please feel free to contact me.

Sincerely,

Brian Tyo
